Hurricane Shutters, LLC

The Revolution in Hurricane Protection

Welcome to the homepage of the hurricane shutter that doesn't look like a hurricane shutter!!

Evolution Hurricane Shutters, LLC is located near Ellenton, Florida and we manufacture the ONLY metal framed, patented, clear, Category 5 impact resistant storm shield that offers 24/7 protection while saving you money.

That's right - crystal clear hurricane shutters that save money on your electric bill!

We manufacture these crystal clear hurricane shutters - we're not a distributor or dealer which means that we actually make **Evolution Hurricane Shutters** right here in Florida. But our shutters aren't for just hurricane protection - they are hurricane protection PLUS passive energy saver - PLUS security panel - PLUS sound insulator all in one. Not only do our clear shutters withstand impact forces far above any building code standard but over time, **Evolution Hurricane Shutters** actually pay for themselves with energy savings! Since 2003 over 150 homes and businesses in Southwest Florida have been experiencing the benefits of **Evolution Hurricane Shutters** and we are now making them available to more homes, businesses and churches. Look over the information contained within this website, watch a video presentation or go see a live demonstration and then decide for yourself if what we say is true.

Then, when your hurricane protection installation professional calls on you, insist that he installs crystal clear hurricane protection by **Evolution Hurricane Shutters, LLC** - simply and clearly the best protection for your home, family and property.

Florida Building Code Approved (latest 2010 version)

Before you spend thousands of dollars on impact windows, watch the videos below and think about this fact - the polycarbonate material used to make the crystal clear panels in Evolution Hurricane Shutters is 200 TIMES stronger than the glass used to make impact windows.
